# Master of Computer Applications (MCA)

This is a Master's Level program, leading to the grant of a degree of Master of Computer Applications from JAIN (Deemed-to-be University). This two-year online program offers foundation courses, core courses, and a comprehensive project apart from an option to pursue a cross-functional and open elective. The core courses incorporate the model curriculum as prescribed for a full-time MCA program. The courses have been designed keeping in mind the industry's requirements. The program is designed to provide in-depth knowledge of technologies and their applications in designing software applications. The program's curriculum is intended to increase a learner's technical skills and abilities thus providing a way to accelerate one's career for corporate roles in the software domain.

Electives Offered	Fee Per Year
Computer Science and IT	₹ 65,000
Data Analytics (Accredited by IoA, UK)	₹ 1,00,000
Cyber Security **in collaboration with TCS**	₹ 1,00,000
